

SOCIETY FOR PEDIATRIC SEDATION
**SPS SEDATION
PROVIDER COURSE[®]**

Precourse to PHM 2018

July 18, 2018

Emory Center for Experiential Learning (ExCEL) Simulation Center

1648 Pierce Dr. NE, Suite B31
Atlanta, GA 30327

Registration fee: \$549 early (by June 27)/\$649 late (after June 27)

A young child is shown sleeping peacefully, hugging a large, light-colored stuffed animal. The child's eyes are closed, and their expression is calm. The background is a soft, out-of-focus blue and white, suggesting a hospital or clinical setting.

*Providing practitioners
with the knowledge,
competencies and tools
to promote high quality
procedural sedation
to children.*

Meeting Information

Target Audience

The target audience for the SPS Sedation Provider Course® includes health care providers who have clinical experience in the area of pediatric sedation and who desire to enhance their knowledge and clinical competency in the field. This group includes physicians, nurses and advance-practice nurses involved in the field of pediatric sedation.

Statement of Need

This course is designed to meet the needs of the sedation provider seeking both practical (simulation) training and didactic content focused on patient selection, patient safety, pharmacology and the management of common adverse events. As significant adverse events are rare, this “hands-on” model of training is especially pertinent.

Purpose

Participants will gain clinical skills and a deeper understanding regarding issues related to the assessment of sedation patients, development of a sedation plan, recognition and management of both common and life-threatening adverse events in sedation practice and sedation pharmacology. This course is designed to provide practitioners with the knowledge, competencies and skills that promote safe and effective high-quality procedural sedation to children.

**PROGRAM LIMITED TO
24 PARTICIPANTS**

SPS Sedation Provider Course® Objectives

The goal of the provider course is to provide practitioners with the knowledge, competencies and tools to promote high quality procedural sedation to children. Upon successful completion of this course, the registrant should be able to:

1. Perform a pre-sedation risk assessment;
2. Describe the effects of sedation on airway control and respiratory drive;
3. Explain the principles of and interpret the information from pulse oximetry and capnography;
4. Define, diagnose and treat adverse airway and cardiopulmonary events during sedation;
5. Demonstrate knowledge of the pharmacology and uses of common sedative drugs;
6. Demonstrate hands-on critical competencies related to sedated pediatric patients including all aspects of airway management, ventilation, resource management, and appropriate use of resuscitative measures; and
7. Develop a systematic and rational approach to pediatric sedation.

Program

Emory Center for Experiential Learning (ExCEL) Simulation Center

7:00 a.m. – 7:30 a.m.	Registration and Continental Breakfast	12:30 p.m. – 2:00 p.m.	Simulation and Small Groups
7:30 a.m. – 8:00 a.m.	Welcome and Introduction	2:00 p.m. – 3:30 p.m.	Simulation and Small Groups
8:00 a.m. – 8:30 a.m.	Orientation to Simulations	3:30 p.m. – 4:15 p.m.	Non-Pharmacologic Small Group Session
8:30 a.m. – 10:00 a.m.	Simulation and Small Groups	4:15 p.m. – 5:15 p.m.	Tailoring Sedation Lecture and Small Group Session
10:00 a.m. – 10:15 a.m.	Break	5:15 p.m. – 6:00 p.m.	Testing
10:15 a.m. – 11:45 a.m.	Simulation and Small Groups		
11:45 a.m. – 12:30 p.m.	Lunch
